

# Yr3 Learning Letter - Friday 14th October 2016

## Martha and Lisa's Class

It's been full steam ahead with assembly practice this week, and the children have been working hard to learn lines, songs, and dances. We're looking forward to next Wednesday and hope you are too! It's been a really good opportunity to work on speaking and listening skills and we've been pleased to see that we have some real performers in the class.

**Our Class Assembly takes place on Wednesday 19<sup>th</sup> October at 9.15am - we'd love you to come!**

Strutting their funky stuff!

Although we have been mostly focussed on our rehearsals, we also managed to find some time for science, and Martha was amazed by how fantastically the children understood how fossils are formed. Not only did the children use their close observation and scientific vocabulary when they handled fossils and discussed the work of Mary Anning, they also flexed their palaeontology muscles when they worked carefully and with great focus to excavate chocolate chips from a cookie!

**Parent Evenings are taking place during the week beginning Monday 31st October. That's straight after half term. Please return your forms asap!**
