

Year One Home Learning Spring 2 - Week 4 - 18.3.19

This week we have been:

- * exploring the story of Man on The Moon by Simon Bartram
- * designing and making a space belt to hold 3 objects,
- * learning about a day in the life of an astronaut on the International Space Station,
- * learning to use vocabulary related to length,
- * measuring objects around the classroom and outdoor area.

For home learning, you can.....

- * Draw around your family members' feet and find objects to measure them with
- * Find 5 toys/teddies and put them in order from tallest to shortest.
- * If you were an alien, what would you look like? What planet would you come from? Draw a picture of yourself as an alien!
- * Practise reading real and alien words at home by playing 'Picnic on Pluto' on your computer at home: <https://www.phonicsplay.co.uk/ChildrensMenu.htm>

Phonics

In Sophie's group we have been investigating ways to spell /ee/ (sleep, treat, chief, me, funny, money) and finding out which ones are most common - or a 'best bet'. We have also looked at alternative ways to spell /ch/ (church, match).

In Sarah and Fiona's group we have been learning the alternative spelling for /air/ (bear, there, hair), /or/ (talk, four, caught), ur (learn, word, circus) and /oo/ (could, put).

In Naomi's group we have been revising split digraph u_e, practising reading 2 syllable words such as farmyard and revising tricky words learnt to date.

In Leela's group we have been learning the alternative spelling of the sound 'oo' (clue, glue, true), 'or' (saw, paw, raw), 'w' (what, why, when) and 'f' (phonics, dolphin, alphabet). We have also been practising the letter names alongside their sounds.

In Rez's group we have been learning the split digraph o_e (lobe, stone, bone) and a_e (make, game, cake). we also wrote short sentences using all our previous digraphs including tricky words.

Have a great weekend!

Can you find all the planets?

K N P T E E T S A Z U R T D O

WORD LIST

STAR	PLANET	SATELLITE
LUMINOUS	PHASE	ASTEROID
ECLIPSE	ORBIT	ROTATE
TILT	MERCURY	VENUS
EARTH	MARS	JUPITER
SATURN	URANUS	NEPTUNE
PLUTO	GALAXY	

Here's a short rhyme to help you remember the order of the planets!

Mercury	Venus	Earth	Mars	Jupiter	Saturn	Uranus	Neptune
My	Very	Elderly	Mother	Just	Sat On	Uncle	Ned
