

## This week we have been .....

- *tinkering with mechanical clocks and learning to tell the time*

Find a clock with hands (an analogue clock) and show somebody how to tell the time.

Which way is clockwise? Which way is anti-clockwise?

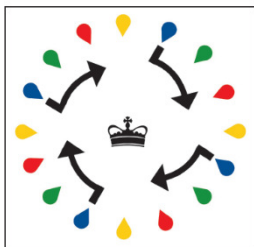

Explain how a clock can help us with our 5 times table.

- *celebrating world poetry day!*

Find some poetry in your home or try to remember your favourite nursery rhyme.  
What do you like about it? Can you write another verse for it?

- *learning how to dance creatively around the Maypole*

What is this pattern called and where might you see something like this on your local high street?

CLUE: it's called a B\_\_b\_\_'s Pole

- *using percussion instruments to create our own 'ostinato' piece in music*

Use the clues in this pattern of music to explain to someone what ostinato means
