

## This week we have been .....

- reading *Ice Trap* by Meredith Hooper and learning new vocabulary to prepare us for writing our own fantastic 'Antarctic Adventure' story

What exciting, Antarctic vocabulary can you use to summarise the beginning of the story?

- learning the reasons for seasons!

Explain to somebody how the tilt of the Earth affects the changing seasons. What else causes the dramatic changes of seasons on our delicate planet?

- enjoying our favourite books!

Remember that next Thursday is World Book Day and our class will celebrate that on Friday.

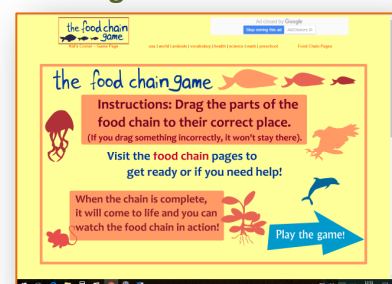

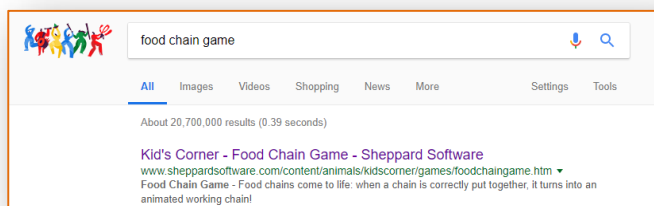

Take your World Book Day voucher to a participating bookshop and collect the free book of your choice.

(Moon Lane Books, Stanstead Road – the nearest to Kilmore)

- looking carefully at the Antarctic food chains and the different roles that *producers*, *consumers* and *decomposers* play

Type 'FOOD CHAIN GAME' into your search engine to find:
