

Year Two Home Learning
Autumn 1, Week 4 27.09.19

This week we have been ...

- continuing to improve our ball skills focusing on accurately passing and catching the ball
- learning the features of instruction writing

We found out what kind of words the verbs are in a sentence.

Make a list of verbs from the books that you read at home.

- learning how to represent two digit numbers with pictures and money. We challenged each other to name the value of the coins.

What coins can you use to show tens and what would be the best coins to represent ones?

For home learning you can...

- teach someone at home how to make two digit numbers using coins.
- practise the words overleaf, these will be our spelling focus for next week
