**Re: Year 3 Stone Age Workshops**

Dear Parents and Carers,

To support our class with our Stone Age topic we have organised a workshop on 27<sup>th</sup> January. The children will learn about

- **History** – a look at primitive technology including primitive flat bows and flint tipped arrows, flint tools including knives, scrapers, arrow heads and a shafted axe, bark containers, wooden spoons and cups, animal hides and buckskin, cordage and textiles, use of plants and fungi.
- **Shelter Building** – pupils will engage in active discussion to understand what they are designing and building, with a hands on session to create a shelter.

The workshops will be taking place at Kilmorie.

The cost of the workshop will be £4.40 (£2.20 for children entitled to pupil premium) and will be added to your ParentPay account.

Yours faithfully,

Elis, Jo, Maria and Simone  
Year 3 Teachers
