

# Year Two Home Learning

## Spring 2, Week 1 24.2.23

Welcome back! We hope you all had a good break and are ready for the next half term. Please could we remind you that the Parent-Teacher meetings are being held next week. If you have been unable to book an appointment on Teams, please speak to your child's class teacher.

Please do take time to also read [Julie's weekly newsletter – it is available here](#).

### This week...

- We have introduced our new Big Question:

#### **What impact has climate change had on Antarctica?**

- In Maths we have been focusing on 'equal' groups.

Take 12 objects, e.g. pencils.

- Can you put them into equal groups?
- Can you find another way?
- How many ways can you find altogether?

Repeat for these numbers: 15, 18, 20.

Are there more ways of sorting the bigger numbers into equal groups?

- In English we have been publishing our Ponko stories. We can't wait to share them with you.
- In Geography we have been finding out about the human and physical features in Antarctica.

Did you know that there are volcanoes in Antarctica?

What other physical features are in Antarctica?

Have a look at this website to see some fantastic photographs:
