

Year Two Home Learning

Spring 2, Week 3 10.3.23

This week has been a very busy one! We have celebrated Science Week, International Women's Day and World Book Day.

- On Monday we went to a special assembly to mark the beginning of Science Week. We learnt about solids, liquids and gases. It was so much fun!
- To mark International Women's Day, we found out about some female scientists who have made a big difference to the world in which we live.
- In class, we carried out investigations to test materials for strength and resistance to water. We are going to use our findings to make a bag for an Antarctic explorer.
- In Maths we have been introduced to the division symbol. We have made equal groups by **grouping** and **sharing**.

Look at the problems below. Which shows grouping and which shows sharing?

Mo has 20 chairs.

a) Circle groups of 5 chairs. ☐

b) How many groups did you circle? ☐

c) Complete the number sentence.

$$\boxed{} \div \boxed{} = \boxed{}$$

Sam has 20 apples. She shares them equally between 4 boxes. ☐

Ron has 20 sweets. He shares them equally between some party bags. There are 2 sweets in each party bag. ☐

Max has 20 toy cars. He shares them equally between 5 boxes. ☐

Kim has 20 pens. She shares them equally with her sister. ☐

Can you write calculations to go with the problems?

- In English we have looked at punctuation marks and discussed how they help the reader. What happens if you don't use punctuation marks?
Read the writing below. Add punctuation marks to help the reader – capital letters, full stops, question marks, exclamation marks.

1. what time is it
2. it was dark outside
3. the weather did not spoil the day
4. stop right there the guard shouted
5. i live with mum dad and steve

- Write sentences or a story about the picture.

bears

waterfall

looked

beautiful

wild
