## Summer Week 4 – 12.05.23

After another long weekend, the children have come back with their usual enthusiasm! Dodging the rainfall, the children continue to enjoy the outside area as the weather warms. Every day seems like a beach day, as the children are showing their sharing and team working skills in the sand pit. Elsewhere, the children have been learning all about planting and what seeds need to grow. The children are very excited to see what might grow over the next few weeks.

In other areas the children have been making beautiful rabbits from different materials, fish tanks out of recycled resources and finishing off the bunting for our Garden Party on Saturday. We have also introduced our brand new 'Tuck Shop'. Children now choose a certain number of coins to pay for their snack each day. This is a great way to support their understanding that numbers relate to different quantities and a fun way to introduce them to using money, especially in the day of everything being 'Contactless.'

In cooking this week, the children loved making cheesy vegetable pasta and especially enjoyed eating it afterwards. There was so much left over that even the adults got to have some for lunch! Again, this was a fabulous way to get children to talk about different types of vegetables and trying new foods. The children were also lucky to use the shakers in music, shaking to the beat and a change in tempo.

### Things to Note

### Number of the Week

Next week our special number is **4**.

If you are out and about or just at home, please point out this digit to your child and show them the quantity it relates to. Maybe it's four cakes, or four fingers, or four cars. Feel free to send in any pictures relating to our special number.

### Lost Balance Bike

On Tuesday, a purple balance bike went missing from just outside the Nursery on Elsinore Road. It was only left for a few moments. If anyone knows of its whereabouts, please do talk to a member of the Nursery staff as you will make a little 3-year-old, very happy again! It may have been that the bike was taken by mistake, as we have a purple pedal Frog bike in the bike storage area, which has not been moved in the last few days.

## **Travel Agents**

We are setting up a travel agent. If you have any donations such as bags, small suitcases, tickets, brochures, maps, flags, globe etc..... THANK YOU!

## **Early Years Garden Party**

Our Early Years Garden Party is tomorrow!

Please be aware that parents and carers are responsible for their own children with regard to what they eat and where they are playing at this event.

Thank you for all the support you have shown over the last few weeks. We look forward to seeing you on Saturday!

If you are kindly baking for the café, please **list all ingredients** and attach this to your contribution.

## **Crocs**

Thank you for remembering not to put your children in Crocs!

## **Save the Date!**

This year's beach trip for Early Phase is on Wednesday 5<sup>th</sup> July. More information will follow. Please note, for children in Nursery to come on the trip, they will need to have a parent with them.

Have a lovely weekend everyone and hope to see as many as you as possible at the garden party!

Katrina, Sophie, Tracey, Liz, and Fiona
