

## Year One Home Learning

### 16.5.2023

#### This week we have been:

- \* Learning how to count in 5s and using a number line for addition sums.
- \* We have been carrying out a science smell test with our eyes closed, trying to identify the foods and deciding which is the strongest and which is the weakest.
- \* Investigating facts about tigers and writing fact files
- \* We have created an emotion potion (linking it to Zones of Regulation) and taken a pencil for a walk (doodling) for mental health week.

#### For home learning, can...

- Please bring in books about animals for us to borrow and share in class
- Talk about where you think the tiger went next after he left Sophie's house. We will be writing an additional ending to the story next week
- Write/find out some facts about tigers to share.
- Carry out some addition sums using two digit numbers

**We need lots of small boxes for the children to make animal habitats if you could bring them in please.**

#### Phonics

In phonics this week we have been revising these sounds:

/igh/i tiger, /ai/a paper, /oa/ow snow, /yoo/ u unicorn

Alien words: uct waib joil splue stret meve

We have also been revising tricky words: two eye thought through friend

Thank you so much for everyone for helping and coming to the garden party on Saturday which was a fun day and very successful.

Have a restful weekend!

The Year One Team
