

# Year Two Home Learning

## Summer 1, Week 5 19.05.23

### This week...

- In Maths, we have been exploring how many minutes there are in one hour, and how many hours there are in a day.

Which answer?

How many minutes in an hour?

100

60

True or false?      ✓ ✗

**1 minute** is the same as **60 seconds**.

**1 day** is the same as **60 hours**.

**1 month** is the same as **7 days**.

**1 week** is the same as **7 days**.

- In English, we have further explored tropical rainforests by reading *One Day on Our Blue Planet*. We used drama and role play to imagine how the spider monkey felt when he lost his mother.
- We pretended to be other animals in the different layers of the rainforest as they gossiped about poor little monkey.

You could try writing a conversation between these two characters. What might they say about the other animals in the rainforest?

The children have worked really hard this week and have earned a well-deserved rest!
