

Weekly Learning Letter

Date: 18th September 2026

This week in Year 2:

We have been working on sentence writing. A sentence is a group of words that make sense by themselves. We made sure that we used capital letters at the beginning and full stops at the end of our sentences. We also tried to remember our finger spaces and checked that our sentence made sense. It is a lot to remember!

Can you write a sentence about this picture?

Can you use a conjunction to extend your sentence?
(Remember, a conjunction joins two sentences together.)

and but because

Phonics / Spellings:

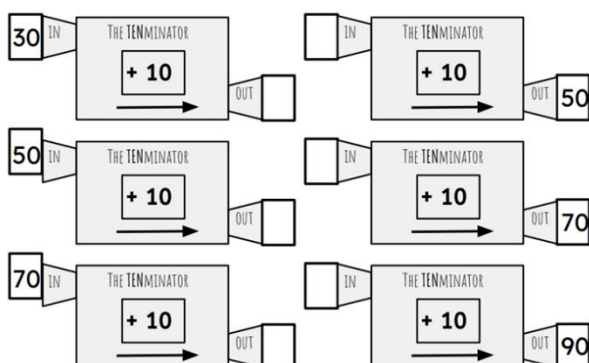

We will be focusing on these words to help us with our writing:

door
floor
poor
because
beautiful

Maths / Number:

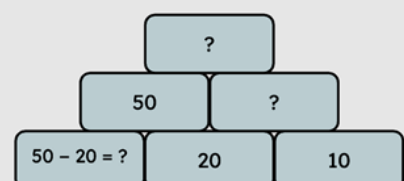

We have been working on using number lines; both drawing our own and placing numbers between 0 – 100 on blank number lines. We have also been looking at what happens to multiples of 10 when we add or subtract 10.

1) Fill in the missing numbers.

There are three missing numbers.

What is the equation for each?

Weekly Learning Letter

Reading:

Reading books will be sent home **next** week in your child's bag.

When reading with your child at home, you can help your child by asking them questions as they read. Here are some suggestions:

Where is this story set?

Does the book remind you of any other stories?

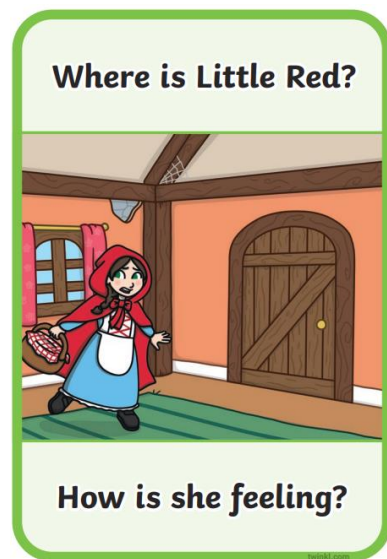

What might happen at the end? What clues are there?

How is the character feeling, how do we know?

Why did the character say/do that? How do we know?

Challenge:

PSHE

This week, as part of our Keeping and Staying Safe topic in PSHE, we have been looking at how tying our shoelaces can prevent accidents that are often caused when rushing around. It is a good time to encourage the children to learn how to tie their own shoelaces.

Weekly Learning Letter

Geography

In Geography this week the children have been looking at aerial maps and creating their own aerial maps of fairy gardens using resources from the wild garden.

World Afro Day

On September the 15th, we celebrated World Afro day. The children watched a video about afro hair and then practised drawing afro hair.

Home learning ideas:

Go on a nature walk and use found objects to represent different numbers. You could use sticks for counting in tens, and conkers for counting ones. Tell someone what number you have made.

You could also create your own piece of artwork using the objects you found like we did this week in Art.

School website:

Please do [visit our website](#), you can find details of forthcoming events on the [calendar](#) (& you can subscribe to your child/ren's year group so it will auto update your calendar), as well as photos of learning activities including educational visits in the [photo gallery](#), read all about recent events and sporting achievements in the [school news](#) section and much, much more!

Have a lovely weekend.

Rebecca, Hannah, Naomi and Will
